	<h1>Model CSB1475</h1> <h2>USB Darlington Output Module</h2>	
click on picture for larger view		

The CSB-1475 USB Darlington Output module provides 24 or 48 Darlington drive outputs (low side). Each output provides a darlington closure to ground to allow control of devices with voltages up to 30VDC. User connects the device under control to a source voltage on one side, the other to the module output. Each module has an unique serial number string which allows multiple USB devices to be controlled by the host USB controller as individual devices.

Features

Darlington Sink Driver Outputs	
2 to 30 Volts DC output	Sample applications (VB VC++) included
250mA per output	Operating Temperature -30C to 70
ULN2003	Small Size 2.5 x 3.4 inches
Weight 10 oz	Windows 98/2K/XP/Vista Drivers
50 pin ribbon cable (IDE) interface	USB cable included

Ordering Information		
Number	Description	Price
CSB1475-24	24 Darlington board	\$85.00 ea.
CSB1475-48	48 Darlington board	\$110.00 ea.
